

Presenter Guidelines:

If your abstract has been accepted for an Oral Presentation, please refer to the instructions below:

- As a presenter you will have 10 minutes to present your work during the Parallel Oral Sessions (see time table). Afterwards, 5 minutes are provided for questions and answers regarding your presentation.
- Please use a PowerPoint presentation during your oral plenary presentation. Prepare your presentation with a 16:9 aspect ratio in landscape.
- We highly recommend the use of the [BPS-YRD slide template](#).
- Presenters are expected to deliver and view/check their PowerPoint presentation at 9h30 in the room of presentation.
- To stimulate discussion between the delegates and individual presenters please use the provided time to give enough information regarding the background, methodologies, (preliminary) results and (possible) implications during your presentation (even when only available from limited sample sizes).
- The event will be attended by a variety of scientists and health professionals. Your presentation should be understandable by anyone with a general life and health science background.
- All young investigators presenting their work are qualified for the oral presentation prize contest. The winner will be announced during the closing and awards ceremony. Being present at the ceremony is mandatory to receive the award.

If your abstract has been accepted for a Poster Presentation, please refer to the instructions below:

- Posters will be mounted on poster boards. The space for each poster is restricted and it is therefore essential that posters are produced to comply with our size requirements. Posters should be prepared in A0 portrait format. Fixing materials will be provided at the poster room.
- Poster presenters are required to install their posters at 9h30 so that posters can be viewed during the registration coffee and lunch. Posters should stay up until the closing and awards ceremony.
- Presenters are expected to present their poster during the poster walks (see time table).
- As a presenter you will have 3 minutes to present your work during this session. Afterwards, 3 minutes are provided for questions and answers regarding your poster presentation.
- All young investigators presenting their poster are qualified for the poster prize contest. The winner will be announced during the closing and awards ceremony. Being present at the ceremony is mandatory to receive the award.
